

“This is the most relevant PD EVER!
I can't begin to tell you how excited I
am to use these materials.”

TEACHER

In a seven week study with 18 Pre-K students, we tested counting ability, numeral, letter, color, and basic word recognition. This graph summarizes the average results.

MATH & MOVEMENT

Comprehensive STEAM Package for Pre-K

Take your school's curriculum to the next level with Math & Movement and kinesthetic learning!

Teach math, literacy, science, number sense, problem solving, and collaboration through movement and play-based learning!

WHY IS THIS PROGRAM HELPFUL FOR PRE-K?

Students love to move! The Math & Movement kinesthetic activities are concrete and developmentally appropriate! Students engage in fun and creative movements, enjoy collaboration and crawl, trace, hop or jump on colorful floor mats while simultaneously making learning enjoyable and increasing the synaptic connections in their brains.

WHAT WILL STUDENTS LEARN?

Number, letter and sound identification, shapes, patterns, one-to-one correspondence, number words, colors and color words, blending, days of the week, months of the year, character development, planets, animal names including dinosaurs, pets, farm animals and more! Student's self-confidence will soar as they engage in exploratory and play-based learning.

STEAM + PRE-K

The Math & Movement STEAM activities deepen the understanding of STEAM concepts and lay the foundation for problem solving, academic risk-taking and collaboration. According to a study by Georgetown University, the future is bright for students who have been exposed to STEAM.

TRAIN YOUR TEACHERS

This package also includes a training for your school. A Math & Movement consultant will train your teachers on how to use our materials and how to integrate our program into their classrooms every day! Our onsite training will engage and inspire your teachers!

“The magic of Math & Movement is that children become so engaged, they forget they are practicing math.”

PRINCIPAL

INCLUDED in the package

MATH

Count to 10 Mat
Number Line to 10 Mat
Number Line 0-20 Mat
Number Line 0-20 Stencil
Hop by Tens Mat
Ten Frame Hop
