

MATH&MOVEMENT™

FREE WEBINARS

Math & Movement founder, Suzy Koontz, has created a webinar presentation to immediately support educators and parents. Whether it is in the classroom, virtually, or at home, it is our mission to make learning fun and engaging for students.

Kinesthetic Strategies to Improve Math Outcomes for the Classroom, Online, and Home Instruction

This one hour interactive presentation offers kinesthetic strategies that support state standards, build number sense and critical thinking, and increase a student's fluency and ability to focus and understand. All participants will receive the Math & Movement Training Manual ebook and six digital skip counting banners.

Target Audience: Educators and parents of PreK through 5th Grade students

Why would this webinar benefit you?

We understand the challenges of coming up with new ways to present materials. We want to present you with new content and ideas that you can use in your classroom, online, or during home instruction.

You will learn new strategies for increasing student engagement, making math fun, teaching kinesthetic learners, building number sense, and bringing the joy of learning back into the classroom!

Presenter Bio

Suzy Koontz, Founder and CEO of Learn Thru Movement, is an actuary, an educational consultant, a math teacher, and the creator of Math & Movement, Movement & Literacy, and over 150 kinesthetic teaching tools. As the author of over 15 books, Suzy's passion is helping students recognize their ability to learn and helping them lead healthier lives while achieving academic success. Suzy's mission is for ALL students to be on grade level in math and reading.
